

PSEG Nuclear Siren Test

October 4, 2022

**The sirens will sound for 3
minutes starting at 10:45 AM
with a radio message
following at 10:50 AM.**

The quarterly test of the emergency siren system will be conducted on Tuesday, October 4, 2022 at approximately 10:45 a.m. followed by an EAS Radio message at 10:50 a.m.

This test is routine and no actions are required.

If you're within ten miles of the PSEG Nuclear generating station during test time, you may hear the sirens. Sirens will sound for a full three minutes at approximately 10:45 a.m.

In an actual emergency, the siren is your signal to tune your radio to WENJ-FM 97.3 for official information.
